| About 7 Months   | D110    | 3D Object Fitting Exercise        |   | US\$18.81      | Made of BEECHWOOD<br>An early opportunity for a child to discriminate size. The child can explore putting a wooden egg in a cup and taking it out again. Putting a ball in a cup is a new experience, because the child has to turn over the cup to remove the ball. Putting a cube in a box is even more challenging because it is necessary to line up the corners of the box and cube for success. Simple for high success. |

The material consists of 9 green metal frames with bottoms and red insets with 1 set of 5 circles decreasing in diameter and 1 set of 4 squares decreasing in length and width.  |
| 6-12 Years Old | C354   | Metal Square* 9 plates                  |    | US\$64.05      | This material is used for geometry, specifically exercises of equivalent, identical and similar figures. The set consists of 9 green metal frames with bottoms, 1 set of insets divided into squares and rectangles and 1 set of insets divided into triangles (this material is also used for small metal inset work, 'linear geometric design.').                                       |
| 6-12 Years Old | C355   | Metal Triangles *4 plates               |    | US\$31.58      | The Metal Triangles material allows the child to make an analytical study of triangles. The set consists of 4 metal frames with bottoms. The insets are equilateral triangles divided into 1, 1/2, 1/3 and 1/4.   |
| 6-12 Years Old | C356   | Theorem Of Pythagoras                   |    | US\$102.62     | This set of material represents three cases of the Theorem Of Pythagoras. In the first, 2 sides of the triangle are equal; in the second, the sides of the triangle are in the proportion of 3: 4: 5; and in the third, the general case (the Euclidean demonstration) is shown. The material consists of 3 green metal plates with bottoms and blue, red, yellow and white inset pieces. |
| 6-12 Years Old | C357   | Equivalent Figure Material              |   | US\$138.15     | The Equivalent Figure Material provides experience in studying the relationship of equivalent figures that leads to the discovery of area and theorems. The material consists of 13 green metal frames with bottoms and red insets.   |
| 6-12 Years Old | C090   | Pythagoras Board                        |  | US\$21.60      | Framed red wooden board labeled 1-10 across and 1-10 down. A wooden box in two compartments contains small wooden tiles   |
