

Measurement table

Letter	Name	Description	Measure guide	Measurement	
A1	HEAD CIRCUMFERENCE	From the forehead, dropping to the temples, over the ears, dropping to the occipital bone, down to the base of the cranium and back around the other side to the forehead, This is not a horizontal line going around the head (U)	1 to 24 to 2 to 3, and then symmetrically circle back to point 1 to end.		
A2	JAW CIRCUMFERENCE	From just beneath the chin following the jaw line around to the nape of the neck and then back around to the chin again.CROWN	Start from point 4, go through 13, 5, 6 to point 7, and then symmetrically go back to point 4 to end.		
D	CROWN	Over the crown of the head from one side to the other	From point 2, go around the top of the skull to the same position on the other side.		
E	THE FACIAL LINE	Distance from the base of the chin, up past the nostril, across the front of the eye and to the forehead	Point 24 to 4		
F1	THIRD EYE	Distance from forehead to eyebrow line	Point 1 to 18		
F2	THIRD EYE	Distance from forehead to nose bridge	Point 1 to 19		
G	NOSE LENGTH	Distance from nose bridge to nose tip	Point 19 to 20		
H	SEPTUM	Distance from nose tip to philtrum	Point 20 to 21		
I	PHILTRUM	Distance from septum to the border of the top lip	Point 21 to 22		
J	LIPS	Distance from the border of top lip to the border of the bottom lip	Point 22 to 23		
K	CHIN	Distance from border of bottom lip to just beneath the chin	Point 23 to 4		
L	FOREHEAD	Distance along the head circumference from the forehead to The Facial Line (E)	Point 1 to 24		
M	BRIDGE	The space separating both eyes Don't measure over the nose bridge but simply straight across.			

Letter	Name	Description	Measure guide	Measurement	
N	EYES	Distance between the pupils when looking straight ahead			
O	NOSTRILS	Distance between the nostril holes			
P	MOUTH	Distance between the mouth creases			
U	HEAD	Circumference straight around the head			
X	Neck Length	Starting from the mandibular angle to the shoulder, the turning position	Point 6 to 9		
Z1	MID NECK CIRCUMFERENCE	Narrowest circumference around the neck	Near the laryngeal node
